

SHARIF SHAGHIL

Full-Stack Developer

Belthara Road,Ballia, Uttar Pradesh, India | +91-7754992001 | sharifshaghil1999@gmail.com | <https://github.com/phenomgithub>

PROFESSIONAL SUMMARY

Motivated Full-Stack Developer with a B.Tech in Computer Science and Engineering and hands-on experience building full-stack web applications. Proficient in React.js, Node.js, JavaScript, SQL, and Supabase. Experienced in designing secure, scalable software solutions, database management, REST APIs, and end-to-end software development. Passionate about creating efficient applications and continuously learning modern technologies.

TECHNICAL SKILLS

Programming Languages: JavaScript, Python

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Express.js

Database: PostgreSQL, MySQL, MongoDB, Supabase

Tools: Visual Studio Code (VS Code), Git, GitHub

Concepts: REST APIs, Role-Based Access Control (RBAC), Responsive Web Design, SDLC

PROFESSIONAL EXPERIENCE

Full-Stack Developer | 4B Pharmacy

July 2025 – July 2026

- Architected and deployed a tailored full-stack Pharmacy Management System to production, digitizing daily operational workflows and supporting 100+ daily customer transactions.
- Engineered a real-time inventory management pipeline to track hundreds of medical SKUs and automate supplier orders, reducing stock discrepancies.
- Implemented robust security protocols, including JSON Web Tokens (JWT) and strict Role-Based Access Control (RBAC), to safely segment sensitive customer data between admins and staff.
- Designed a high-performance relational database schema using Supabase and PostgreSQL, optimizing query times for rapid customer checkouts and sales tracking.
- Managed the complete end-to-end SDLC from initial requirement gathering with shop owners to server deployment, performance testing, and ongoing system maintenance.

PROJECTS

Trello Clone | Full Stack Project

Technologies: **Frontend:** React, Tailwind CSS, **Backend:** Node.js, Express.js, **Database:** MongoDB Atlas (via Mongoose).

A full-stack project management application inspired by Trello. This application allows users to organize tasks dynamically using custom column boards with full database persistence.

- Full CRUD Columns: Create, view, update, and delete workflow columns dynamically.
- Modern UI: Styled using Tailwind CSS for a clean, responsive user experience.
- Robust Backend: Built with Express and Node.js to serve structured API endpoints.
- Cloud Database: Integrated with MongoDB Atlas for secure, real-time data persistence

Github: <https://github.com/phenomgithub/trello-clone-fullstack>

Library Management System

Technologies: PHP, MySQL, HTML, CSS

- Developed a Library Management System for managing books and user records.
- Implemented authentication, book issue/return, and database management.

Github: <https://github.com/phenomgithub/Library-Management-System>

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science and Engineering

Graduated 2024

Chhatrapati Shahu Ji Maharaj University, Kanpur, Uttar Pradesh

Senior Secondary/ 12th Intermediate (CBSE) 83.4%

2018

Secondary/High School (CBSE) 10CGPA

2016

CERTIFICATIONS

- HTML, CSS, and JavaScript for Web Developers

(coursera.org/verify/L5PMVMX62GDX)

LANGUAGES

English, Hindi
